## Construction (Design and Management) Regulations 2003

(Designer Responsibilities & Design Risk Assessment)

### Aims & Objectives:

The aim of this course is to raise awareness about the CDM Regulations 2003 as applied to Designers. Its objectives are:

- To advise Designers of their legal responsibilities under the CDM Regulations 2003.
- To provide the key skills necessary to enable Designers to carry out their functions under the Regulations.
- To enable Designers to carry out Design Risk Assessments under the Regulations.
- To advise Designers on the practical steps to be taken to fully comply with the law.
