Construction Operatives Site Safety Awareness

Presented by:

Dr PETER SLINGER BSc LLB PhD MIOSH MCIEH

Dr Slinger has 20 years experience working in the field of Health & Safety. He has worked as a Health and Safety Inspector for numerous authorities in the UK and has gained professional qualifications in legal and technical fields. Peter has also worked as a Senior University Lecturer in Health and Safety, training future Inspectors entering the profession. He now works as a Health and Safety Consultant and acts as an expert witness in legal cases.

Aims of the course:

To raise awareness of construction site hazards and to promote personal site safety.

Objectives:

At the end of the course the delegate should be able to:

- Understand the requirements of relevant construction legislation.
- Be aware of relevant HSE Guidance on construction site safety.
- Understand the need to adopt safe methods and practices when entering upon construction sites.

Methods used: PowerPoint presentations, small group work & individual exercises.

The training programme has been specifically designed for construction operatives and all workers who have to visit or enter upon construction sites.

Duration:

One day

Why should I attend this course?

SafetyNet Ltd specialises in delivering Health and Safety training solutions to Isle of Man clients. Our training packages are carefully tailored to cover the Health and Safety issues affecting all construction and refurbishment projects. This training course will enable construction operatives to be aware of the inherent dangers of working on construction sites.
